

**EHE Office of Research**

**PI Portal Webinar Series**

**Project Financials – A Brief Overview**

**Michael Moses, Post-award Grants Support**

# “PI PORTAL SUUUCKS!!!!”

“I’m mad as hell and I’m  
not going to take this anymore.”

**“It’s always wrong!”**

**“That’s not my balance!”**

**“It’s useless!”**

Michael’s 2 cents😊:

PI Portal has limitations and tracking your budget can be tricky. However, your budget is a “financial expression” of your research: as the research evolves, the budget will too – and we must sometimes cope with a lag while the research and money sync up.

## In this webinar, we'll focus on:

1. Understanding the layout of the *Financials* tab
2. Recognizing when sponsor approval is needed for issues such as budget revisions
3. Understanding the importance of PI Portal *Financials* information

## Navigating to the *Financials* Tab

*Financials* tab is located in the ***Project*** view

The *Project* view has a grayish-blue color scheme and contains the most detailed financial and expenditure data. The *Award* view has pinkish scheme. If you have trouble navigating from the *Award* view to the *Project* view, look for hyperlinks and tabs referring to “Projects” or numerical ID #s beginning “600...” Awards have ID #s beginning “GRT000xxxxx”

## Navigating to the *Financials* Tab

Upon log-in, first screen is *Project Summary* – list of PI's active projects

Click on project title to enter *Project Detail* of a specific project

Click on *Financials* (5<sup>th</sup> tab from left)

(screenshots below...)

Use +/- button to expand/minimize line item detail.

## Financials Tab Layout

5 columns containing budget data:

- **Line Item:** budget categories recognized by OSP
- **Budget:** sponsor-approved amount by category
- **Expended:** current expenditure data per category\*
- **Commitments:** future obligations earmarked via HR Action, eRequest and OSP purchase order
- **Balance:** overall and by category

## Financials Tab Layout

In theory:

Balance = Budget – Expended – Commitments

However, there are almost always unseen commitments (pending expenditures “in process”) not yet entered into systems that make determining the “true balance” difficult.

## Financials Tab Layout

After reviewing the *Financials* tab, you can access details of specific charges:

*Personnel* tab: salary, fringe and tuition costs by individual\* (past charges and future commitments in this tab)

*Expenditures* tab: all non-personnel charges that have been fully transacted to date\*\*

*Commitments* tab: future non-personnel obligations\*\*\*

## Financials Tab Layout

Analyzing detail in *Personnel*, *Expenditures* and *Commitments* tab is key to understanding why there may be large balances or deficits in specific line items and therefore why there may be a need for...

## Sponsor Approval for Budget Changes

Negative line item balances may or may not be a red flag but this must be determined.

Terms & Conditions - “Discretionary” funding? Budget flexibility? Important to know terms & conditions of your award as they pertain to spending.

## Sponsor Approval for Budget Changes

Involve EHE-OR and OSP and seek sponsor approval as soon as you suspect significant deviations from approved budget.

Fiscal Officers can be of assistance too.

It is critical to ask for help.

## Why is the *Financials* tab important?

Think of the Portal as:

1. A constantly changing “financial expression” of your research project.
2. A “bank statement” for your research project (not savings though 😊)
3. The basis for **official** fiscal reporting from OSP to sponsor.

## ***Payments tab***

Most relevant to OSP Accounting team

Relevant to PIs if project is experiencing unexpected issues or if payment method is “deliverable-based”

No info displayed for “Letter of Credit” grants (from major federal agencies such as NIH, NSF, IES)

## Tips for tracking *Financials* data

1. Review *Financials* tab at least monthly
2. Be mindful of future costs that can't be “committed”
3. Use a “shadow” budget
  - regularly revise proposal budget accordingly
  - PI Portal Excel export feature
4. Ask for help! Involve dept. and EHE-OR staff as needed
